

SATELLITE 550 Mk II Concrete Grinder

The heavy duty diamond grinder and concrete polisher

Ideal for:
 Grinding & Polishing
 (60-85m² per hour)
 Levelling & Cleaning
 Coating Removal
 Glue removal
 (30-45m² per hour)
 Re-surfacing
 Sanding

Fixed or Variable Speed models.

Ideal for either heavy grinding of fine polishing.

Maximum production from this class of 415V machine.

Flattens or levels floors efficiently but will also grind a floor with a dish or shallow spoon. (Most planetary grinders will gouge floors with small undulations.)

High Productivity - does not have a complex high maintenance drive system which uses up the motor power. Puts the motor into doing the job.

Easy to use - with axle adjusted, the machine can be operated with only one hand!

Uses 5", 7" and 10" discs and plugs

Folds up for easy transport and storage

Quick disc change over - no tools!

With the magnetic plug system you can change your disc tooling within seconds!

To change the plugs, use a hammer on the driver plate to release the morse taper.

- Three phase or petrol motors available
- 5 Years Warranty on the cyclo transmission
- 50mm Dust collection Port for dust free operation
- Adjustable axle for easy operation
- Floating shroud

Tooling used:

5" & 7" Cup
Wheels - always
use shallow dish

Turbo plug

Diamond plug

PCD plug

Turbo stick

Polishing Pads

Velcro Driver Pads

Sanding Pads
