

SATELLITE 760-6

The heavy duty diamond grinder and concrete polisher

Ideal for:
 Grinding & Polishing
 Levelling & Cleaning
 Coating Removal
 Glue removal
 Re-surfacing
 Sanding

Fixed or Variable Speed models.

Ideal for either heavy grinding of fine polishing.

Maximum production from a 415V machine.

Flattens or levels floors efficiently but will also grind a floor with a dish or shallow spoon. (Most planetary grinders will gouge floors with small undulations.)

High Productivity - does not have a complex high maintenance drive system which uses up the motor power. Puts the motor into doing the job.

Easy to use - with axle adjusted, the machine can be operated with only one hand!

Uses 5", 7" and 10" discs and plugs (6)

Quick disc change over - no tools!

With the magnetic plug system you can change your disc tooling within seconds!

To change the plugs, use a hammer on the driver plate to release the morse taper.

- Three phase motor
- 5 Years Warranty on the cyclo transmission
- 50/75mm Dust Collection Port for dust free operation
- Adjustable axle for easy operation
- Floating shroud

Tooling used:

5" & 7" Cup
Wheels - always use shallow dish

Turbo plug

Diamond plug

PCD plug

Turbo stick

Polishing Pads

Velcro Driver Pads

Sanding Pads
